Cyber resilience for critical information infrastructures

Organized by:

CERT-MU

Training details

Modality: Online instructor led
Dates: *04 Nov 2026 - 07 Nov 2026*
Training fees: $0.00
Language: English
Application deadline: 19 Oct 2026
Training code: 26OI500409MUL-E-D
Contact: mlobin@cert.govmu.org

Training description

This course focuses on enhancing the protection and cyber resilience of Critical Information Infrastructures (CII). These include essential assets, systems, and functions whose disruption or destruction could severely impact a nation's economy, government operations, public health and safety, as well as national defense and security.

The course introduces participants to key concepts, policies, guidelines, and preparedness measures essential for safeguarding CII. It also examines practical implementation aspects and the legal framework underpinning national CII protection policies.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
