**Application deadline:** 02 May 2023
**Payment methods:** bank_transfer, credit_card, M-PESA, Bank transfer, Credit card, M-PESA
**Training code:** 23OI100194AFR-E
**Contact:** Jmwakijele@afralti.org

## Training description

By invitation only The DSB training course provides an in-depth technical review of the DAB+ and DRM30/DRM+ digital sound broadcasting standards. The course covers the formation of multiplexed audio streams with associated data and data services, the carriage of the multiplex and associated signalling, the broadcast transmission stream, and RF transmission modes and details. An overview of receiver products, regulatory aspects and transmission planning are also included. The course will not cover other DSB standards such as HD or ISDB. The course will provide details over a wide range of topics and where appropriate provide the students with suitable guidance on how to further advance their knowledge is specific areas.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

## How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.
