Modality: Blended
Dates: *01 Jul 2025 - 05 Dec 2025*
Training fees: $0.00
Language: English
Application deadline: 01 Jun 2025
Training code: 25BL500294ASP-E-D
Contact: calvin.chan@itu.int

Training description

This training course aims to develop and enhance the cybersecurity skills and capabilities of professionals in the early stages of their careers within the Pacific Island Member States, who are seeking cybersecurity-related career opportunities as well as fostering pathways for internships and professional development opportunities. This course aims to equip participants with a structured 5-month learning experience that combines self-paced modules, in-person and interactive online instructor-led sessions and hands-on workshops to foster a strong cybersecurity community and promote practical, industry-relevant learning outcomes.

Additionally, ITU will identify potential post-certification internships and professional work experience placement for certified participants. Internships/work experience are not guaranteed for certified participants.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on

the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.
