Mainstreaming gender in digital policies

Organized by:

Training details

Modality: Face to Face
Location: , South Africa
Dates: *29 Jan 2026 - 30 Jan 2026*
Training fees: $0.00
Language: English
Application deadline: 30 Jan 2026
Training code: 26WS500436AFR-E-D
Contact: palesa.legoze@itu.int

Training description

The digital landscape offers significant opportunities for socio-economic development, but gender disparities continue to limit equitable access and participation. Women and gender-diverse groups face obstacles in digital access, skill development, and online safety, limiting their engagement and representation in the digital economy. As South Africa advances its digital transformation agenda, it is crucial that policies are inclusive and responsive to gender-specific challenges and opportunities.

The workshop will focus on digital technology, access to digital skills, access to infrastructure and digital services, that contribute to meaningful participation int the digital society and economy.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
