Modality: Online self-paced
Dates: *01 Feb 2019 - 31 Dec 2019*
Training fees: $0.00
Language: English
Registration deadline: 31 Dec 2019
Training code: 18OS24094MUL-E
Contact: hcbmail@itu.int

Training description

This self-paced online course on " ICT Accessibility: The Key to Inclusive Communication" aims at developing good understanding of all stakeholders in the field of ICT accessibility, in particular focusing on related policies, regulations, technology trends and public procurement rules. This course has been developed as immediate response to the outcomes of the World Telecommunication Development Conference 2017, in particular on the ITU Regional Initiative for Europe that called for building human capacities in field of ICT accessibility. This course consists of three modules as follows: • Module 1: Enabling communication for all though ICT Accessibility • Module 2: ICT accessibility policy regulations and standards • Module 3: Achieving ICT accessibility through public procurement This course is open to all stakeholders. It is free and available in English only. Approximate time necessary for accomplishing all modules is eight hours. All three modules are now available. The certificate will be issued upon conclusion of all three modules and based on successful completion of testing phase for each module. The course would be considered completed once all three quizzes have been passed. An ITU administrator will then review your work and within two weeks you will be contacted regarding your certificate.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to register

In order to register for the training, participants should:

1. Create an ITU Academy account here
2. Register for the course here

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
