Training description

The International Telecommunication Union and Faculty of Applied Science of Post and Telecommunication, known as ICT Faculty, Ministry of Information and Communications Technology, are organising a workshop on "Digital Transformation in Digital Economy", from 6 to 10 July 2019 in Tehran, I.R. Iran. The workshop is aimed at sharing best practices and build capacity for ICT stakeholders in the region and I.R. Iran. The main objectives of the workshop are to; inform and create awareness of the use of telecommunications or ICT in support of the digital economy and society; share international best practices on Digital Transformation; and to build capacity and skills development in the digital era through digital transformation.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).
