**Registration deadline:** 20 Sep 2019

**Training code:** 19WS24399ASP-E

**Contact:** [youli@caict.ac.cn](mailto:youli@caict.ac.cn)

#### Training description

The face-to-face training on ICT Application relating to Smart City will be held in Guangzhou, China from 21-24 September, 2019. This face-to-face training is organized jointly by the International Telecommunication Union and the China Academy of Information and Communications Technology as part of the ICT Application programme under the auspices of the ITU Centres of Excellence for Asia-Pacific region. The training will be delivered in English. The training course is designed to enhance strategic understanding of participants on smart city development trends. The training will enable participants to build knowledge about important ICT technology and application of smart city, thereby reducing the standardization gap and enhancing the human resource and infrastructure capacity. Detailed information on this training is described in the training outline (Annex 1) which can be downloaded from the ITU Academy Portal at the following link <https://academy.itu.int/> or <http://www.itu.int/itu-d/asp>. This training is targeted at ICT professional managers and engineers interested in learning ICT application in smart city. It is also targeted at ICT decision makers, managers, technical work for consumers, suppliers and operators. It is also of interest to anyone seeking to understand and exploit the benefits of Smart City and its related ICT application scenarios and directions. Basic knowledge of ICT is required. Registration for the training should be made by completing the registration form (Annex 3) and online (Annex 1) at the aforementioned link no later than 18 August 2019. The training course is offered free of charge. Dr. Ismail Shah ([ismail.shah@itu.int](mailto:ismail.shah@itu.int)), Area Representative, ITU Area Office for South East Asia and Timor Leste is at your full disposal should you require any information.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

## How to register

In order to register for the training, participants should:

1. Create an ITU Academy account [here](#)
2. Register for the course [here](#)

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
