Training description

The ITU-D Digital Inclusion has developed this on-line certificate based self-paced training course, Web Accessibility: The cornerstone of an Inclusive Digital Society composed of 3 modules: - Module 1: Executive tools for developing a web accessibility policy - Module 2: Essentials of implementing a web accessibility evaluation - Module 3: Technical skills for designing and developing accessible websites. The learner will develop an overall understanding of the main issues relating to web accessibility, including: web accessibility policy development, the creation of accessible digital content, the evaluation of level of accessibility of the websites, principles related to the design and development of accessible websites and maintenance of accessible websites, in line with the international standards related to web accessibility.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.
