Training description

Smart devices are designed to connect to the network to help provide vital and real-time data to improve the quality of life. This course aims to introduce participants of the role of automation and digitization using IoT advanced applications for digital transformation is enabling the development of smart city and Industry 4.0. This training will provide a good foundation for participants to understand the relationship between IoT technology, Industry 4.0 and digital transformation. Learning outcomes: Upon completion of this training, participants will be able to: â€ relate to IoT concepts and planning; â€ identify the different ideas of advanced applications of IoT in areas such as Smart Grid, Smart City and Industry 4.0; and â€ understand the use of blockchain technology in IoT applications. Audience: Executives, managers, engineers and technical staff from regulators, policymakers, telecom operators and academia and Government Organization

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to register

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)

2. Register for the course [here](#)

How to pay for the training

A training fee of USD 100.00 per participant is applied for this training course. Payment should be made via the online system using the link mentioned above for training course registration at [course page](#).

Where it is not possible to make payment via the online system, select the option for offline payment to generate an invoice using the same link as above. Download the invoice to make a bank transfer to the ITU bank account shown below. Then send the proof of payment/copy of bank transfer slip and the invoice copy to Hcbmail@itu.int and copy the course coordinator. **All bank transaction fees must be borne by the payer.**

Failure to submit the above documents may result in the applicant not being registered for the training.

Group registration and payment

Registration and payment for multiple people from an organization is possible through institutional contacts.

To become an institutional contact:

1. Go to your profile page by clicking on the “My account” button in the user menu and click on the “Apply to be an Institutional Contact” button
2. Fill in the required information and click “continue”, a request will be created.
3. An ITU Academy manager will manually review this request and accept or deny it accordingly.
4. If accepted, you will find a new menu tab “Institutional Contact” appearing in the top bar. You can now request multiple seats in a course and assign them to people from your group. Kindly note, each individual must create an ITU Academy account.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
