Security Protection and Evaluation for Future Network

Training details

Modality: Online instructor led

Dates: 25 May 2020 - 05 Jun 2020

Training fees: \$0.00

Language: English

Registration deadline: 24 May 2020

Training code: 20OI24871ASP-E

Contact: youli@caict.ac.cn

Training description

Description: As industries begin to converge through the advancement of ICT, the area of Conformance and Interoperability (C&I) becomes critical in digital transformation. This course aims to equip participants with the knowledge of C&I in ICT including the fundamental principles of C&I, the C&I technology standards, the importance of ICT network security issues as well as assessment and evaluations methods. Learning outcomes: Upon completion of this training, participants will be able to:
• develop and implement conformity assessment programs; and
• use the C&I framework, through definitions and methodologies, to ensure ICT network security. Audience: ICT professionals and engineers, decision-makers, managers, equipment suppliers, operators etc. that are involved in ICT network security, with at least a Bachelor degree and three years working experience in this field.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to register

In order to register for the training, participants should:

1. Create an ITU Academy account [here](#)
2. Register for the course [here](#)

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.

International Telecommunication Union
Place des Nations, 1211 Geneva 20
