Description

This module will give an understanding of the concepts of QoS and QoE. This includes the different viewpoints of all kinds of stakeholders involved in telecommunication and ICT and high level comparison of standardized assessment methods for QoS and QoE in the ITU-T and in other Standards Developing Organizations (SDOs) if required.

Registration information

[Document on registration information (English)](#)

Unless specified otherwise, all ITU Academy training courses are open to all interested professionals, irrespective of their race, ethnicity, age, gender, religion, economic status and other diverse backgrounds. We strongly encourage registrations from female participants, and participants from developing countries. This includes least developed countries, small island developing states and landlocked developing countries.
