Lifecycle, principles and good-practices on national cybersecurity strategy development and implementation

Organized by:

Training details

Modality: Online self-paced

Dates: 26 Jul 2021 - 22 Dec 2021

Training fees: \$0.00

Language: English

Registration deadline: 22 Dec 2021

Training code: 21OS26599MUL-E

Contact: cybersecurity@itu.int

Training description

By invitation only! Cybersecurity is a complex challenge that encompasses multiple different governance, policy, operational, technical and legal aspects. This training provides general knowledge to address, organise and prioritise many of these areas based on existing and well-recognised models, frameworks and other references. The training focuses on elements for protecting civilian aspects of cyberspace and as such, it covers the overarching principles and good practice that need to be considered in the process of drafting, developing and managing a National Cybersecurity Strategy. To this end, the training makes a clear distinction between the *process* that will be adopted by countries during the lifecycle of a National Cybersecurity Strategy (initiation, stocktaking and analysis, production, implementation, reviews) and the *content*, the actual text that would appear in a National Cybersecurity Strategy document. This training does not cover aspects such as the development of defensive or offensive cyber capabilities by a country's military, defence forces, or intelligence agencies. The training also provides an overview of the core components of what it takes for a country to become cyber-prepared, highlighting the critical aspects that governments should consider when developing their national strategies and implementation plans. Finally, this training provides to policymakers a holistic, high-level overview of existing approaches and applications, and a reference to additional and complementary resources that can inform specific national cybersecurity efforts.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to register

In order to register for the training, participants should:

1. Create an ITU Academy account [here](#)
2. Register for the course [here](#)

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.

International Telecommunication Union
Place des Nations, 1211 Geneva 20
Switzerland
