

Registration information

Emerging Technology for the Last Mile Connectivity

Training details

Modality: Online instructor led

Dates: 12 Jul 2021 - 14 Jul 2021

Training fees: \$0.00

Language: English

Application deadline: 10 Jul 2021

Training code: 21OI26644MUL-E

Contact: hcbmail@itu.int

Training description

ITU is taking many significant steps to develop human capital, including the creation of useful information products and tools. This course is based on two ITU products: The Last-Mile Connectivity Internet Solutions Guide and Broadband Connectivity Toolkit. The Last-Mile Connectivity Internet Solutions Guide was developed to support the design and development of programmes and interventions that address two of these main issues: the lack of Internet infrastructure availability in certain areas; high Internet service prices that make Internet connectivity unaffordable for local populations. Broadband Connectivity Toolkit is a set of methodologies, software tools and parameters that allows decision makers, network designers or infrastructure owners to support their decisions about connecting of unconnected.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)

3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
