Registration information

Automation of broadband networks designing: selecting the most appropriate solutions to build network

Training details

Modality: Face to Face
Location: [N/A], Kazakhstan
Dates: *14 Nov 2019 - 14 Nov 2019*
Training fees: $0.00
Language: Russian, English
Registration deadline: 13 Nov 2019
Training code: 19WS24312EUR-E
Contact: rdd@onat.edu.ua

Training description

This training aims to introduce participants to modern methods of telecommunication network designing and the principles of itâs automation. It is focused on the aspects of broadband networks designing. Automated selection of the most appropriate solutions to build network using the Broadband Calculator online tool is considered. The training will allow participants to contribute personally to the implementation and development of telecommunication networks in future.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to register

In order to register for the training, participants should:

1. Create an ITU Academy account here
2. Register for the course here

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.

International Telecommunication Union
Place des Nations, 1211 Geneva 20
