

Registration information

Automation of broadband networks designing: selecting the most appropriate solutions to build network

Training details

Modality: Face to Face

Location: [N/A], Kazakhstan

Dates: 14 Nov 2019 - 14 Nov 2019

Training fees: \$0.00

Language: Russian, English

Registration deadline: 13 Nov 2019

Training code: 19WS24312EUR-E

Contact: rdd@onat.edu.ua

Training description

This training aims to introduce participants to modern methods of telecommunication network designing and the principles of its automation. It is focused on the aspects of broadband networks designing. Automated selection of the most appropriate solutions to build network using the Broadband Calculator online tool is considered. The training will allow participants to contribute personally to the implementation and development of telecommunication networks in future.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to register

In order to register for the training, participants should:

1. Create an ITU Academy account [here](#)
2. Register for the course [here](#)

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
