**Registration deadline:** 24 Dec 2022  
**Training code:** 22OS500032MUL-E  
**Contact:** [hcbmail@itu.int](mailto:hcbmail@itu.int)

#### **Training description**

Child Online Protection (COP) is a growing concern as children are at risk of violence, abuse, exploitation, and neglect online. Engaging parents in online safety has never been more important since parents and guardians must understand the exact nature of child online engagements. This self-phased course is designed for parents and guardians about child online behaviours, threats and risks associated with cyberspace, and help them build an open conversation about cyber safety in the family setting.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

#### **How to register**

In order to register for the training, participants should:

1. Create an ITU Academy account [here](#)
2. Register for the course [here](#)

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
