Training description

This course is primarily based on the ITU/World Bank digital regulation handbook and platform with a focus on the following aspects: regulatory governance and evidence-based decision making, competition and economics (including infrastructure sharing), consumer affairs, data protection, financing universal access, emergency communications, cybersecurity strategies, digital financial services and emerging technologies. The scope of this scope is limited to the introduction of specific aspects of digital regulation to enhance knowledge of participants on the issues at stake. The course therefore does not provide for an in-depth analysis of each regulatory aspects of digital regulation.
