Child Online Protection for Parents (Intermediate)

Training details

Modality: Online self-paced
Dates: *19 Aug 2022 - 31 Dec 2022*
Training fees: $0.00
Language: English
Registration deadline: 24 Dec 2022
Training code: 22OS500097MUL-E
Contact: hcbmail@itu.int

Training description

Child Online Protection (COP) is a growing concern today as children are at risk of violence, abuse, exploitation, and neglect online. Engaging parents in online safety has never been more important as parents and guardians must understand the exact nature of children's online engagements and their child's understanding of the dangers and the likelihood that the parent can reduce risks and safeguard their children. This self-paced course is designed for parents and guardians about child online behaviours, threats and risks associated with cyberspace, how to deal with children, and building an open conversation in the family setting.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to register

In order to register for the training, participants should:

1. Create an ITU Academy account here
2. Register for the course here

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
