Certified IoT Fundamental (CloTF)

Organized by:

Training details

Modality: Blended

Dates: 30 Nov 2022 - 01 Dec 2022

Training fees: \$0.00

Language: English, English

Application deadline: 30 Nov 2022

Contact: mustafa.almahdi@itu.int

Training description

The Internet of Things (IoT) Fundamental training course provides an overview and insight into the emerging technology. The course covers the basic concepts, terminology, and key components of IoT. It explains the business perspectives of IoT including the advantages of early adoption and monetization models. It further expands on the technologies enabling IoT and the various challenges to expect. Several scenarios describe the use cases and applications of IoT that result in smart applications and services to inspire organizations making the move to IoT. The course provides future insights in IoT and forecasts the status of the connected world in 2030

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected,

you will receive a notification by email.
