Training description

The ITU ASP CoE online training on 5G and ICT Application for the Asia-Pacific Region to be conducted from 17 to 28 JUNE 2019. This training is organized jointly by the ITU and the China Academy of ICT (CAICT) as part of the ICT applications programme under the auspices of the ITU Centres of Excellence for Asia-Pacific region. The training will be delivered in English through the ITU Academy Platform. This online training aims to develop knowledge about 5G network solutions and practice; an understanding of 5G application trends knowledge and skills on 5G integration, innovation etc. Detailed information on this training (including registration process) is described in the training outline (Annex 1 attached), which can also be downloaded from the ITU Academy Portal at the following link <https://academy.itu.int/>. This training is targeted at managers, engineers and employees from policy makers, regulators, industry and academia, who are interested in understanding 5G technologies and applications. Registration for this training should be made online no later than 29 May 2019. The training is available free on this occasion with the kind support of the CAICT.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).
