Training description

Child Online Protection (COP) is a growing priority as children are more than ever at risk of violence, abuse, exploitation, and neglect online. Engaging policy makers in online safety has never been more critical in protecting children online. This self-phased course is designed for policy makers about child online behaviours, threats and risks associated with cyberspace, and help them to develop national policies and strategies in line with current global trends, that are holistic, inclusive, multi-stake sectoral and evidence based.
