**Training fees:** \$0.00  
**Language:** English  
**Registration deadline:** 20 Dec 2023  
**Training code:** 23OS100129MUL-E  
**Contact:** [samantha.oriordan@itu.int](mailto:samantha.oriordan@itu.int)

#### Training description

The Universal Service Financing Efficiency Toolkit is a practical guide for impactful and sustainable universal access and service implementation. It provides analytical tools, examples, and templates that are grounded in practical experience and designed to help policy-makers, regulators and universal service fund administrators to navigate common questions and challenges they face when using public funds to design, implement and finance programmes and projects that facilitate access to digital technologies and communication infrastructure. This training provides concrete guidance on each of the four parts of the toolkit. This toolkit helps to navigate the multitude of business models that need financial support in order to have a local, municipal and national impact, as well as to meet the UN Sustainable Development Goals (SDGs) and targets related to and facilitated by digitalization. The ITU universal service financing efficiency toolkit and training modules were developed by the International Telecommunication Union (ITU) with the support of Government of the United Kingdom Digital Access Programme (DAP) to promote effective regulation, greater investment, and innovative models for school connectivity in unserved communities and for broader digital inclusion.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

#### How to register

In order to register for the training, participants should:

1. Create an ITU Academy account [here](#)
2. Register for the course [here](#)

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.

International Telecommunication Union  
Place des Nations, 1211 Geneva 20
