The Last Mile Internet Connectivity

Organized by:

Training details

Modality: Online self-paced

Dates: 27 Feb 2023 - 31 Dec 2023

Training fees: \$0.00

Language: English, English

Registration deadline: 22 Dec 2023

Contact: aminata.amadou-garba@itu.int

Training description

This course is based on two ITU products: The Last-Mile Connectivity Internet Solutions Guide and Broadband Connectivity Toolkit. The Last-Mile Connectivity Internet Solutions Guide was developed to support the design and development of programmes and interventions that address the lack of Internet infrastructure availability in certain areas and high Internet service prices that make Internet connectivity unaffordable for local populations. Broadband Connectivity Toolkit is a set of methodologies, software tools and parameters that allows decision makers, network designers or infrastructure owners to support their decisions about connecting of unconnected.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).
