Training fees: $0.00
Language: English, English
Application deadline: 29 Sep 2023
Contact: hcbmail@itu.int

Training description

There is currently a significant gender gap associated with access to, and use of, the internet and mobile broadband services. This gender gap can be attributed to a number of factors including the cost of devices and services, network coverage, concerns around security and harassment as well as a lack of technical literacy among women. This course explains the background to the issues and focuses on strategies that can be used to help close the gender gap

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.
