Training code: 23OI100253MUL-E
Contact: nancy.sundberg@itu.int

Training description

This course is primarily based on the ITU/World Bank digital regulation platform with a focus on the following aspects: digital transformation strategies, regulatory governance, evidence-based decision making, regulatory sandboxes, competition and economics (market analysis), infrastructure sharing, universal access and service financing efficiency, data and consumer protection, cyber-security and resilience regulatory measures and strategies, and emerging technologies regulatory aspects. The scope of this course is to examine specific aspects of digital regulation to enhance further knowledge of participants on the issues at stake. The course therefore does not provide for an in-depth analysis of each and every regulatory aspect of digital regulation but enables participants to get a deeper understanding and greater knowledge on specific aspects of policy and regulation in a digital world. The online training will be organized by ITU with the kind support of the Digital Regulation Academy DRA of CST as part of the collaboration between Saudi Arabia and the International Telecommunication Union (ITU) on assistance in telecommunication/ICTs to ITU Member States, and other partners.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here

2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
