**Application deadline:** 15 Nov 2023

**Training code:** 23WS100281ARB-E

**Contact:** [mustafa.almahdi@itu.int](mailto:mustafa.almahdi@itu.int)

#### Training description

This course is based on the ITU/World Bank digital regulation handbook and platform and tailored specifically to the needs of the KSA and CST, with a focus on the following aspects: digital regulation and governance, evidence-based decision-making in the digital environment, regulatory sandboxes, competition and economics (market analysis), infrastructure sharing, data and consumer protection, cyber-security and resilience regulatory measures and strategies, and regulatory aspects of transformative technologies. The scope of this course is to examine advanced aspects of digital regulation to enhance further knowledge of participants on the issues at stake. We will use innovative and collaborative mechanisms for group activities and exercises, such as the online, collaborative platform Miro to generate insights for participants and instigate discussion on various digital regulation topics. The course provides an in-depth analysis of digital regulations and laws in KSA and worldwide. It enables participants to get a deeper understanding and greater knowledge of specific aspects of policy and regulation in the digital world by highlighting good practices. The online training will be organized by ITU with the kind support of the Digital Regulation Academy (DRA) of CST as part of the collaboration between Saudi Arabia and the International Telecommunication Union (ITU) on assistance in telecommunication/ICTs to ITU Member States, and other partners.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

#### How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
