

Registration information

Design and development of smart cities

Organized by:

Training details

Modality: Online instructor led

Dates: 04 Dec 2023 - 11 Dec 2023

Training fees: \$75.00

Language: English

Application deadline: 30 Nov 2023

Payment methods: credit_card, Credit card

Training code: 23OI100291MUL-E

Contact: hcbmail@itu.int

Training description

This course is the first in a series of courses that focus on the design and implementation of smart cities. Many countries have sought to develop smart villages/towns/cities with varying degrees of success according to the penetration of broadband networking infrastructure capable of supporting the large amounts of data that need to be transmitted. This course provides an overview of aspects of smart city development to be considered. It focuses on the perspectives of the human element and the built environment, which includes buildings, street furniture, foliage, etc. Although it makes reference to more technical topics such as sensors and radiofrequency propagation, those will be the focus of a subsequent course.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)

2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

How to pay for the training

This course is organized by , an ITU Academy Training Centre, which will collect the training fees directly.

You will find details about the payment process of this Centre at the following [link](#) or alternatively in your ITU Academy account under [My courses](#).

Kindly note that payment must be made by 02 Dec 2023

Group registration and payment

Registration and payment for multiple people from an organization is possible through institutional contacts.

To become an institutional contact:

1. Go to your profile page by clicking on the “My account” button in the user menu and click on the “Apply to be an Institutional Contact” button
2. Fill in the required information and click “continue”, a request will be created.
3. An ITU Academy manager will manually review this request and accept or deny it accordingly.
4. If accepted, you will find a new menu tab “Institutional Contact” appearing in the top bar. You can now request multiple seats in a course and assign them to people from your group. Kindly note, each individual must create an ITU Academy account.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
