Training code: 24OS100306MUL-E

Contact: orhan.osmani@itu.int

Training description

Focusing on protecting civilian aspects of cyberspace, this course covers the overarching principles and good practices in drafting, developing, and managing a National Cybersecurity Strategy, based on existing models and frameworks.

With generous support from the Global Gateway initiative of the European Union, participation in this training programme is free of charge.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to register

In order to register for the training, participants should:

1. Create an ITU Academy account [here](#)
2. Register for the course [here](#)

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
