Description

Focusing on protecting civilian aspects of cyberspace, this course covers the overarching principles and good practices in drafting, developing, and managing a National Cybersecurity Strategy, based

on existing models and frameworks.

With generous support from the Global Gateway initiative of the European Union, participation in this training programme is free of charge.

Registration information

[Note d'information pour inscription (Français)](#)

[Documento de información sobre la inscripción (Español)](#)

Unless specified otherwise, all ITU Academy training courses are open to all interested professionals, irrespective of their race, ethnicity, age, gender, religion, economic status and other diverse backgrounds. We strongly encourage registrations from female participants, and participants from developing countries. This includes least developed countries, small island developing states and landlocked developing countries.
