## **Description**

Designed for policy-makers, this course focuses on child online behaviours, threats, and risks associated with cyberspace, aiming to develop national policies and strategies that are holistic, inclusive, and evidence-based.

## **Registration information**

**Document on registration information (English)** 

Note d'information pour inscription (Français)

Unless specified otherwise, all ITU Academy training courses are open to all interested professionals, irrespective of their race, ethnicity, age, gender, religion, economic status and other diverse backgrounds. We strongly encourage registrations from female participants, and participants from developing countries. This includes least developed countries, small island developing states and landlocked developing countries.
