Training description

This course is aimed at providing guidance for developing table top simulation exercises which will help to test if NETPs and other national strategies for disaster preparedness and response are ready to be used when disasters strike.

This course is based on the 'Emergency Telecommunications Table-Top Simulation Guide' developed by the International Telecommunication Union (ITU) and Emergency Telecommunications Cluster (ETC) which is available on the ITU website and referenced throughout the course.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to register

In order to register for the training, participants should:

1. Create an ITU Academy account here
2. Register for the course here

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
