Training description

In this comprehensive course, we will delve into the critical issue of electronic waste (e-waste) on a global scale. E-waste, comprising discarded electronic devices and equipment, presents a growing environmental and societal challenge. This course aims to provide you with a comprehensive overview of this issue, incorporating the latest statistics and legislative developments sourced in the Global E-waste Monitor and the Global E-waste Statistics Partnership.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to register

In order to register for the training, participants should:

1. Create an ITU Academy account here
2. Register for the course here

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.

International Telecommunication Union
Place des Nations, 1211 Geneva 20
