Description

A practical guide for universal access and service implementation, this toolkit offers analytical tools, examples, and templates to assist policy-makers, regulators, and fund administrators in designing, implementing, and financing digital technology and communication infrastructure programs.

The main objective of this course is for participants to better understand and apply the analytical tools, examples and templates provided in the toolkit to navigate common questions and challenges faced when using public funds to design, implement and finance programmes and projects that facilitate access to digital technologies and communication infrastructure.

Registration information

[Document on registration information \(English\)](#)

[Documento de informação de inscrição \(Português\)](#)

Unless specified otherwise, all ITU Academy training courses are open to all interested professionals, irrespective of their race, ethnicity, age, gender, religion, economic status and other diverse backgrounds. We strongly encourage registrations from female participants, and participants from developing countries. This includes least developed countries, small island developing states and landlocked developing countries.
