### Detalhes do treinamento

**Modalidade:** Online instructor led

**Datas:** 22 Apr 2024 - 31 Dec 2024

**Taxa de admissão:** \$0.00

**Idioma:** English, Portuguese, Spanish

**Prazo de inscrição:** 01 Dec 2024

**Código do treinamento:** 24OS100345MUL-E

**Contato:** danielnunes@inatel.br

### Descrição do treinamento

This online course aims to equip national and local government authorities with the necessary knowledge and skills to foster a technical understanding of the telecommunications sector, specifically focusing on wireless infrastructure deployment. Through an exploration of regulatory and fiscal aspects related to permitting approvals and processes, this course provides a holistic overview of the key principles essential for promoting investment in connectivity and bridging the digital divide. Throughout the course, participants will delve into critical topics such as infrastructure sharing, authority coordination, and sustainable development, recognizing their vital role in fostering investment and driving connectivity. By understanding these principles, public officials will gain the capacity to analyze efficient regulations that facilitate seamless infrastructure deployment, optimize

the use of existing infrastructure, and streamline the installation of new infrastructure. The course places significant emphasis on technical principles that underpin wireless infrastructure deployment, empowering government leaders to make informed decisions and navigate the complexities of the telecommunications sector. Participants will gain a comprehensive understanding of the latest technological advancements, best practices, and industry standards, enabling them to assess and evaluate infrastructure proposals effectively.
