Training description

National cyber crisis management course is the introductory two-day, scenario-based, purpose-built training designed to take attendees to the intermediate level. The course will include both theoretical and practical components that cover a wide range of topics related to national cyber crisis management. Students will explore the main concepts of cyber crisis management, understand the key roles and responsibilities of key stakeholders involved in national cybersecurity crisis management, including the role CSIRTs. In addition, the importance of effective crisis communication will be explained during the course. Lastly, the course will include a scenario-based discussion where participants will be able to test the knowledge acquired during the training course.
