#### Training description

The SMTP is designed for individuals within ICT and telecommunications sectors who wish to enhance their knowledge and competence in the area of spectrum management. This includes engineers and managers working in telecommunications regulatory authorities, ICT service providers and other ICT stakeholders. Policy makers in ministries and government departments responsible for ICTs will also benefit from this programme. This module aims to provide participants with a comprehensive view of some of the most dynamically developing business areas of radiocommunications. The course aims at describing the technologies and their lines of development which are present in the world in the given field. The independent course provides high-level technical knowledge and it is also connected to other modules.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).
