

Registration information

Radio signals and health

Training details

Modality: Online instructor led

Dates: 23 Apr 2024 - 24 Apr 2024

Training fees: \$0.00

Language: English

Application deadline: 16 Apr 2024

Training code: 24OI100375MUL-E

Contact: dgutierrez-torres@gsma.com

Training description

The effect of radio transmissions on health has been studied extensively, leading to international standards for network antennas and exposure limits for workers and the public. Despite the ever-growing body of scientific knowledge, many people continue to be concerned about electromagnetic fields (EMFs) and their impact on health. This course looks at the state of the science, standards for mobile technologies, regulatory compliance and public awareness and education. This course will equip participants with the knowledge and skills necessary to navigate the complex landscape of electromagnetic fields (EMFs) and their potential impact on public health.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
