

Registration information

Advanced broadband mapping

Organized by:

Training details

Modality: Online self-paced

Dates: Open

Training fees: \$0.00

Language: English

Registration deadline:

Training code: 24OS100382MUL-E

Contact: fns@itu.int

Training description

Broadband mapping combined with modern Geographic Information Systems (GIS) and its practical knowledge supports efficient identification of connectivity gaps, network planning to extend access to most critical places, and support to decision making based on data-based models. Developed by the ITU, this training offers an advanced path to continue the introductory course of Broadband Mapping, provided also in a Self-paced format by the ITU Academy. The course consists of 3 modules: Data Standardization and Data Storage; Geospatial ICT Infrastructure Analysis; and the Open Fiber Data Standard.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to register

In order to register for the training, participants should:

1. Create an ITU Academy account [here](#)
2. Register for the course [here](#)

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
