Training fees: \$0.00

Language: English

Application deadline: 18 Sep 2024

Training code: 24OI100414MUL-E

Contact: mlobin@cert.govmu.org

Training description

Critical Information Infrastructure is defined as those assets systems and functions that are vital to the nations that their incapacity or destruction would have a devastating impact on the economy, government capability to function, public health and safety as well as on national defense and security. This training course focuses on protecting and strengthening the cyber resilience of critical information infrastructures. The course will also introduce participants to the key terms, policy, guidance, and preparedness efforts required to safeguard critical information infrastructures. Implementation aspects legal framework of a critical Information Infrastructure policy will also be discussed.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).
