Cyber disaster response: development of simulation exercises

Organized by:

Funded by

Global Gateway

Funded by the European Union

CERT-MU

Training details

Modality: Face to Face
Location: , Mauritius
Dates: *22 Oct 2024 - 24 Oct 2024*
Training fees: $0.00
Language: English

Application deadline: 08 Sep 2024
Training code: 24WS100424MUL-E
Contact: ituacademy@itu.int

Training description

Cybersecurity exercises are a very effective way of learning the practical aspects of information security. But designing such exercises is not an easy task. This course provides a number of steps and guidelines that should be followed when designing a cyber exercise. The steps include defining the objectives, choosing an approach, designing network topology, creating a scenario, establishing a set of rules, choosing appropriate metrics and capturing lessons learned. This 3-day training course examines the key elements required to develop cyber disaster response simulation exercises. It will enable participants to increase collaboration, through greater understanding and familiarity of interaction between the private and public sectors and a better understanding of cyber-attacks, as well as the protection and defense of critical information infrastructures so that knowledge and skills for planning, implementing, and following up on cyber disasters can be improved. With generous support from the Global Gateway initiative of the European Union, participation in this training programme is free of charge for selected applicants. This includes accommodation, meals, and other planned learning activities during the training. Participants or their organizations are responsible for covering their travel expenses.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.
