Training fees: $0.00

Language: English
Application deadline: 20 Oct 2024
Training code: 24OI500160MUL-E-D
Contact: queenie.tam@undp.org

Training description

As countries ramp up digital transformation efforts to tackle complex challenges, digital public goods (DPGs) and open-source technologies have emerged as promising tools that the public sector could leverage to fulfil their mandates. This course provides government officials and policymakers with a comprehensive overview on DPGs and open-source technologies, including their importance in enhancing service delivery, fostering innovation, and promoting sustainable development. Participants will be equipped with practical knowledge and skills to identify and implement DPGs/ OSS from conception to deployment, evaluate their organizations' readiness and needs, and advocate for DPGs/OSS to leadership and stakeholders. The course will heavily feature examples from the Global South, highlighting the potential of leveraging DPGs and open source in driving inclusive development.

With the generous support of the Global Gateway initiative of the European Union, this course is offered for free for selected participants.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.
