Modality: Online instructor led

Dates: 14 Jan 2025 - 20 Feb 2025

Training fees: \$0.00

Language: English

Application deadline: 15 Dec 2024

Training code: 25OI500163MUL-E-D

Contact: ituacademy@itu.int

Training description

This course provides an introduction to artificial intelligence (AI), focusing on its application in the public service. Participants will be guided through the entire process of devising AI-based services in the public sector. Lessons will cover not just the functional aspects of this application but also the governance and ethical aspects of the process to offer a holistic point of view.

With the generous support of the Global Gateway initiative of the European Union, this course is offered for free for selected participants.

The content of this short course is a reduced version of the AI4Gov Master Programme, formerly supported by the EU and offered by Universidad Politécnica de Madrid and Politecnico di Milano. For more details about the full master's programme and details on how to apply, please visit <https://www.ai4gov-hub.eu/master/#AboutMaster>

For more information about the training objectives, target population, entry requirements,

methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
