Description

This training course is by invitation only.

Ecosystem Initiative Development 201 is an online course designed to equip ITU Acceleration Centres with skills for building and expanding digital innovation ecosystems. Based on the Playbook for Ecosystem Initiative Development, it aligns with the ITU Innovation Framework and aims to accelerate digital transformation and support national development agendas. The course focuses on collaborative approaches and provides participants with a structured methodology to design and implement technology-enabled initiatives.

Targeting policymakers, entrepreneurs, and ecosystem facilitators, the instructor-led program offers interactive sessions with experts, personalized guidance, and collaborative discussions. Through comprehensive modules, and practical exercises, participants will learn to navigate innovation ecosystems, engage stakeholders, and ensure the sustainability and impact of their initiatives. Join us to unlock the potential of your ecosystem initiatives and drive transformative change!

Registration information

[Document on registration information \(English\)](#)

Unless specified otherwise, all ITU Academy training courses are open to all interested professionals, irrespective of their race, ethnicity, age, gender, religion, economic status and other diverse backgrounds. We strongly encourage registrations from female participants, and participants from developing countries. This includes least developed countries, small island developing states and landlocked developing countries.
