Cyber disaster response: development of simulation exercises

Organized by:

CERT-MU

Supported by

Funded by
the European Union

Training details

Modality: Face to Face

Location: , Mauritius

Dates: 05 May 2025 - 09 May 2025

Training fees: \$0.00

Language: English

Application deadline: 19 Mar 2025

Training code: 25WS500210MUL-E-D

Contact: mlobin@cert.govmu.org

Training description

This 4.5-day training course provides essential steps and guidelines for designing effective cybersecurity exercises, focusing on the practical aspects of information security. During the course, participants will learn how to define objectives, choose appropriate approaches, design network topologies, create realistic scenarios, establish rules, select relevant metrics, and capture valuable lessons.

The program also emphasizes developing cyber disaster response simulations, enhancing participants' ability to foster collaboration between the public and private sectors. By the end of the course, attendees will gain a deeper understanding of cyber-attacks and strategies for protecting and defending critical information infrastructures. These skills will enable participants to plan better, implement, and follow up on cyber disaster responses.

With generous support from the Global Gateway initiative of the European Union, participation in this

training programme is free of charge for selected applicants. This includes accommodation, meals, and other planned learning activities during the training. Participants or their organizations are responsible for covering their travel expenses and visa application costs for Mauritius if needed.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
