Training description

This online course offers a comprehensive examination of the intersection between Environmental, Social, and Governance factors within the realm of mobile networks. Participants will explore the pivotal role of ESG considerations in shaping the evolution and sustainability of mobile network infrastructures. Through modules covering topics such as green network technologies, social impact assessment, regulatory compliance, and governance frameworks, attendees will gain a nuanced understanding of how ESG principles influence decision-making, operations, and innovation within mobile network ecosystems. This course empowers industry professionals to integrate ESG strategies effectively, fostering environmentally conscious, socially responsible, and well-governed mobile network practices aligned with global sustainability objectives.

For more information about the training objectives, target population, entry requirements,

methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
