Language: English, English
Application deadline: 23 Feb 2025
Contact: cdo@merit.unu.edu

Training description

<div class="OutlineElement Ltr SCXW88581681 BCX0"><p>Digital technology is becoming important in addressing sustainable development challenges. This course introduces participants to the challenges of digital inclusion, the consequences of digital divides, and the opportunities towards inclusive and equitable digital transformation. </p></div><div class="OutlineElement Ltr SCXW88581681 BCX0"><p>The modules focus on digital inclusion, evaluation, and approaches to understanding digital technologies and their relationship with development and governance in a changing technology landscape. Participants will receive training on theoretical aspects of digital inclusion, as well as an introduction to tools used to unearth and evaluate these gaps. </p></div><div class="OutlineElement Ltr SCXW88581681 BCX0"><p>Through applications related to low-and-middle-income countries, participants will be introduced to models of technology acceptance and diffusion, and inclusive design in technology-based solutions to global social challenges. </p></div><div class="OutlineElement Ltr SCXW88581681 BCX0"><p>With the generous support of the Global Gateway initiative of the European Union, this course is offered for free for selected participants. </p></div>

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
