Spectrum monitoring techniques and methods (introductory)

Organized by:

Training details

Modality: Online instructor led
Dates: *06 Apr 2025 - 10 Apr 2025*
Training fees: $0.00
Language: English
Application deadline: 17 Mar 2025
Training code: 25OI500244MUL-E-D
Contact: EG-ATRC@tra.gov.eg

Training description

This training course focuses on equipping participants with foundational knowledge and practical skills in Spectrum Monitoring. It emphasizes the critical role of spectrum monitoring in ensuring efficient use of radio frequencies, addressing interference issues, and supporting regulatory compliance.

The participants will be equipped with the necessary skills to conduct spectrum measurements and analyze results, operate advanced spectrum monitoring and direction-finding equipment as well as identify and analyze interference problems in various scenarios.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.
