Registration information

# Implementation of spectrum monitoring systems according to ITU-R Recommendations

**Organized by:**

## Training details

**Modality:** Face to Face
**Location:** Munich, Germany
**Dates:** *30 Jun 2025 - 04 Jul 2025*
**Training fees:** $0.00
**Language:** English
**Application deadline:** 11 May 2025
**Training code:** 25WS500248MUL-E-D
**Contact:** Kerstin.juettner@rohde-schwarz.com

## Training description

A practical and engaging course designed for professionals in telecommunications, this program offers a well-rounded introduction to key tasks, technical procedures, and essential tools used in modern spectrum monitoring.

It focuses on core concepts in spectrum monitoring, exploring regulatory frameworks and international best practices. Participants will become proficient in technical foundations, software tools & applications, via practical exercises and interactive real-world scenarios. During the five days of the training, activities will focus on getting hands-on experience with industry-standard spectrum monitoring equipment, learning fundamentals and to interpret measurement results towards mastering the fundamentals of spectrum monitoring.

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page here.

## How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account here
2. Apply for the course here
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The ITU Academy is the International Telecommunication Union leading platform for capacity development initiatives.
