Registration information

Improving Cyber Threat Intelligence (CTI) analysis skills using MISP for least developed countries (LDCs) and Small Islands Developing States (SIDS)

Organized by:

§ NRD Cyber Security

Training details

Modality: Online instructor led
Dates: *07 Apr 2025 - 08 Apr 2025*
Training fees: $0.00
Language: English, English
Application deadline: 21 Mar 2025
Contact: rj@nrdcs.lt

Training description

<div class="OutlineElement Ltr SCXW10802652 BCX0"><p>This hands-on training program is designed to equip attendees participants from least developed countries (LDCs) and Small Islands Developing States (SIDS) with practical analysis skills using MISP, one of the most widely adopted Threat Intelligence Platforms (TIP) in the field. MISP is a robust, open-source platform that organizations can use to store, share, and receive information about malware, threats, and vulnerabilities in a structured manner. Training will be delivered under the Cyber for Good project. </p></div><div class="OutlineElement Ltr SCXW10802652 BCX0"><p>Participants will engage in discussions about the reasoning behind various CTI analysis tasks and explore real-world scenarios to understand how responder teams effectively leverage CTI through MISP. With a focus on intelligence sharing, including contributions to TIP, students will acquire critical knowledge about what information can be shared, the appropriate methods for sharing, and the right recipients, all tailored to specific objectives. </p></div><div class="OutlineElement Ltr SCXW10802652 BCX0"><p>They will also learn how to extract valuable insights from intelligence feeds, develop strategic questions, create effective queries, and share intelligence to maximize organizational benefits. </p></div><div class="OutlineElement Ltr SCXW10802652 BCX0"><p>Access to the MISP platform will be provided, allowing participants to practice and complete homework

assignments designed to reinforce their learning.</p></div>

For more information about the training objectives, target population, entry requirements, methodology, evaluation and content, consult the page [here](#).

How to apply

In order to register for the training, applicants should:

1. Create an ITU Academy account [here](#)
2. Apply for the course [here](#)
3. The selection of participants for the course will be made by the course coordinators, based on the course's entry requirements, selection criteria and available number of seats. If selected, you will receive a notification by email.

The [ITU Academy](#) is the International Telecommunication Union leading platform for capacity development initiatives.
