Description

The objective of Her CyberTracks is to promote the equal, full, and meaningful representation of women in cybersecurity. To this end, the training course initiative equips women with the necessary skills and mindsets to succeed in cybersecurity through targeted cyber capacity building.

Her CyberTracks offers a one-stop curriculum based on three pillars:

- TRAIN: Develop capacity to contribute to a secure and resilient cyberspace. We provide expert training courses, delivered online and on-site, to equip women with the technical and

soft skills needed to shape cybersecurity.

- MENTOR: Promote awareness and knowledge sharing of best practices in cybersecurity career development. We provide a platform for senior cyber professionals to mentor women at junior level and foster their professional and personal growth.

- INSPIRE: Positive role models in cybersecurity inspire and empower further women to actively participate and lead in the field. We organize inspirational keynote webinars, regional networking meetings and study visits to shift perceptions and (rightly) position women as valuable additions to the cybersecurity workforce.

The curriculum includes the **Her CyberTracks Europe and Africa trainings**, composed of on-site activities featuring soft skills masterclasses, simulations and hands-on exercises, mentorship circles, study visits to cybersecurity organisations, and engaging networking opportunities.

Participants may choose among three available CyberTracks: **Policy & DiplomacyCyberTrack**, Incident Response CyberTrack, Criminal Justice CyberTrack**.**

Registration information

[Document on registration information (English)](#)

Unless specified otherwise, all ITU Academy training courses are open to all interested professionals, irrespective of their race, ethnicity, age, gender, religion, economic status and other diverse backgrounds. We strongly encourage registrations from female participants, and participants from developing countries. This includes least developed countries, small island developing states and

landlocked developing countries.
